Ref: Testimonial

We have started business with Starwhiz sometimes this year. During this short period of time, I was very impressed by the management skill Shawn has extended to his staff. They are now able to run the business without any supervision. It will leaves more time for Shawn to take on more businesses and new challenges.

Shawn have also given me a very strong impression of running his business honestly. This is what, a long term business is built on. With Shawn's long experiences in the fruit business, I am very confident, he will do very well as a trainer.

Our business with his company will grow rapidly as we move forward.

Sincerely,

Victor Tan
CEO/Director
